

# TEK101 BRAKE CLEANER

## 1. Introduction

A highly volatile, fast drying solvent based heavy duty degreaser designed to remove dust, greases and oils from automotive components.

## 2. Where to use

All functional automotive brake components. This product may also be used to clean clutch assemblies, including callipers, discs, plates etc.

## 3. Where not to use

Decorative substrates, where coatings may be affected and plastics or rubber components.

## 4. Benefits

- Removes lining dust from brakes & clutches
- Eliminates brake squeal
- Dissolves all automotive greases and oils
- Removes lining dusts from brakes and clutches
- Fast evaporating

## 5. Physical properties [Brake Clean base except where stated].

Appearance	Clear colourless liquid with a characteristic organic odour.
pH	Not applicable, non-aqueous.
Specific Gravity	0.770 – 0.800
Viscosity	Thin free flowing liquid. Extremely volatile
Non Volatiles % m/m	Nil.
Active Content % m/m, as supplied	60 - 70
Flammability, as supplied	Extremely flammable, flash point below -20°C
Composition Data	A solution of naphtha [petroleum], hydro treated light, alcohol and ketone in butane/isobutane/propane propellant.
Service temperature	Designed for use at ambient temperatures.

## 6. Application Details

Shake can thoroughly before use. Place a drip tray underneath the work area. Spray liberally onto the surface to be treated, and allow contaminated liquid to drain into the tray. Agitation with a brush will assist in the removal of heavy or stubborn contamination. Flush spray until all contamination has been removed, and wipe away contaminated cleaner with a soft absorbent cloth. Always test brake operation after cleaning. Always dispose of contaminated materials in a sealable bin to prevent fire risk.

## 7. Availability

500ml aerosol
